Apple Life Cycle

An apple starts as a tiny seed. Name each picture, then put them in order.

1 Say it Name each picture. Grown-ups: cut on the dashed lines if you like.

			
tree in bloom	seed	apple	sprout

2 Put it in order Draw or glue the pictures: first, next, then, last.

1 first	→	2 next	→	3 then	→	4 last
						

3 Talk about it

- What does a seed need to grow?
- Where do the apples grow?
- What is inside an apple? (Seeds!)

Grow, apple, grow!
