

Name: _____

Date: _____

Dinosaur Track Detective

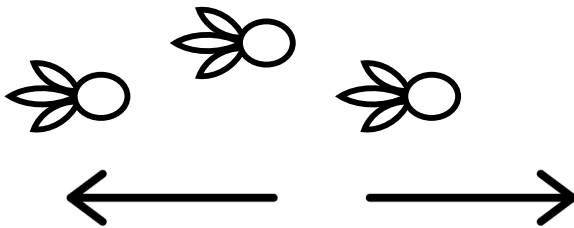

Footprints are fossil clues! Scientists use them to learn how big dinosaurs were and how they walked.

- ① **Count the tracks** Count the footprints. Circle the number.

- ② **Which way?**

Look at the toes.
Circle the arrow.

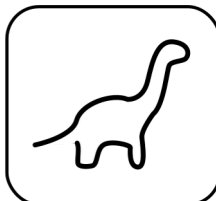

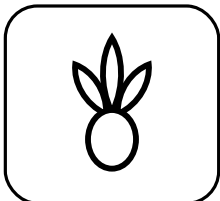

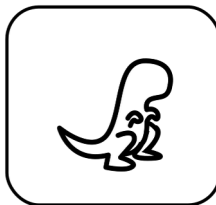

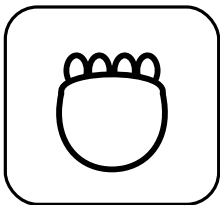

- ③ **Big or small?**

Circle the BIG footprint.
Put an X on the small one.

- ④ **Who made it?**

Draw a line from each track to the dinosaur that made it.

Super sleuth!
